

## ALUCLICK - Supply only

*Rough rule of thumb: If you do not yet have a design, for a small area of 20-25m<sup>2</sup>, allow \$5,000-10,000 for supply only.*

Finish Type & Species	100mm Beam depth	150mm Beam depth
	<b>Based on 200LM quantity, 6.5m lengths, 10% wastage, 1 end-cap per 2LM beam.</b>	
Standard Colours - Internal	<b>\$44/LM</b>	<b>\$67/LM</b>
Standard Colours - External	<b>\$49/LM</b>	<b>\$73/LM</b>
Anodised - External	<b>\$55/LM</b>	<b>\$79/LM</b>
Internal Woodgrains	<b>\$51/LM</b>	<b>\$79/LM</b>
External Woodgrains	<b>\$87/LM</b>	<b>\$117/LM</b>
	<b>Based on 2000LM quantity, 6.5m lengths, 10% wastage, 1 end-cap per 6LM beam.</b>	
Standard Colours - Internal	<b>\$30/LM</b>	<b>\$51/LM</b>
Standard Colours - External	<b>\$35/LM</b>	<b>\$57/LM</b>
Anodised - External	<b>\$40/LM</b>	<b>\$62/LM</b>
Internal Woodgrains	<b>\$37/LM</b>	<b>\$62/LM</b>
External Woodgrains	<b>\$69/LM</b>	<b>\$96/LM</b>
<b>7mm SUPABAB Black acoustic backing board</b>	<b>\$133/ 2400x1200mm sheet</b>	

\*Budget Pricing above is based on supply of 6.5m lengths for cutting to length on site, and allows for 10% wastage. If less than 200 LM, add a \$750 set up fee to the prices above.

\*Prices will also be increased for beam lengths that have high wastage, or Beams that are visible from more directions (E.g. Vertical Screens)

\*Price will be decreased for larger quantities or beam lengths that have very little wastage.

## ALUCLICK -Typical Installation rates\*

Installation under existing plasterboard or to framing by others	<b>\$15/LM*</b>
Extra over to supply and install framing	<b>\$40/m<sup>2</sup> *</b>
Extra over to install 7mm Supabab Acoustic Backing Board	<b>\$7/m<sup>2</sup> *</b>

\*If the installing contractor is not engaged in other trades on site there would be a minimum install cost of \$2000.

These install rates are indicative only and firm install rates would require a site visit by the installer to assess site conditions.
