Reduction for no Integrated Acoustic Textile to rear of panel - Deduct \$25/m2 from prices above

This Budget Pricing is based on a quantity of 50m2, where panels are rectangular and as close as possible to 2400x1200 but panels lengths are custom to suit the space.
If regular access is required we recommend using SUPATILE SLAT, alternatively Access hatches are available at extra cost.
For quantities under 30m2 allow for a \$750 small order surcharge.
Larger quantities will be at a reduced cost.
Add \$25-50/m2 for Solid Black Backing Board instead of Integrated Acoustic Textile
POA for Solid Matching Backing Board
