ARCHITECTURAL LINING SYSTEMS

Limitless design possibilities.
No visible seams or joins.

SUPAWOOD MIMIC is simply the fastest, easiest way to create and install a seamless look in nearly any natural finish you can imagine.

Lightweight and robust, SUPAWOOD MIMIC shows minute detail including shadowing, holes, cracks and other natural features.

Panels join without leaving visible seams simplifying design and removing the need to worry over panel junctions that might conflict with other interior elements.

MIMIC also allows three unique panels, ensuring no side-by-side panel repeats.

Plus, MIMIC installs quickly and cleanly, minimising interruptions and downtime.
