

WAVE BLADES

Custom shaped blades for feature ceilings and walls.

Supply only - ANY DESIGN *

Rough rule of thumb: If you do not yet have a design, for a small area of 20-25m², allow \$5,000-10,000 for supply only.

Extra over cost for 7mm SUPABAB Black acoustic backing board	\$37/m ²		
Extra over cost for 12mm SUPABAB Black acoustic backing board	\$63/m ²		

* Budget Pricing above is based on a quantity of 50 m² of area covered by Wave Blades in 18mm thick with 1 long edge visible and minor length wastage.

*Price will be increased by reduced quantities, Wave Blade lengths that have high wastage, or Wave Blades that are visible from more directions (E.g. Vertical Screens). Thicker blades and more expensive veneers will also increase the price.

For quantities under 30m² allow for a \$750 small order surcharge. Price will be less per m² for larger quantities or beam lengths that have very little wastage.

Supaslat WAVE BLADES -Typical Installation rates*

Installation under existing plasterboard or to framing by others	\$200/m ²	\$160/m ²	\$100/m ²
Extra over to supply and install framing	\$40/m ²		
Extra over install cost if Beam price is over \$500/ m²	\$50/m ²	\$40/m ²	\$25/m ²
* If the installing contractor is not engaged in other trades on site there would be a minimum install cost of \$2000.			
* These install rates are indicative only and firm install rates would require a site visit by the installer to assess site conditions.
