SUPASLAT Aluminium Slat Panel

Modular Metal Slat Panel System

Interior/Exterior

SUPASLAT Aluminium is a highly durable extruded aluminium slat panel system which is suitable for both interior and exterior applications. It is non-combustible to NCC 2019 C1.9 and AS1530.3, completely moisture resistant and available in acoustic options. Choose from a vast range of anodised, powder coated and external wood grain finishes.

Design Flexible Modular Metal Slat System

- Modular construction minimises on-site installation time
- Simple concealed fixing supplied for quick and easy installation
- 99% Recyclable - see Declare label
- Weatherproof options
- Wind loading engineering available
- Service zones available for lights or other services
- Custom profiles available
- Certified Red List free - see Declare label

Backing Options

- Open backing
- 1mm Supabab for acoustic performance
- Non-combustible insulations

Standard Sizes Available in 3 standard sizes.

INTERNATIONAL LIVING FUTURE INSTITUTE™ living-future.org/declare

Declare helps you and your clients use sustainable materials by showing you:

- > Where a product comes from
- > What a product is made of
- > Where a product goes at the end of its life
- > If a product contains toxic ingredients

Why Declare?

Declare is the only label that combines material transparency and the Red List. It distills complex chemical ingredient information into an easy to read label. **Declare** helps you find and specify Red List Free products, which are healthy for people, the environment, and communities.

Benefits

- > Quickly evaluate products to find the healthiest choice for you and your client
- > Contribute to Green Star, Living Building Challenge, LEED, and WELL projects
- > Make a difference with every specification!
