

# Biophilic Design

Let's get back to nature!

Naturalistic Shapes and Forms • Linings Suitable for Inside and Out • Natural Finishes and Materials

## What is Biophilic Design?

Biophilic means 'love of nature'. Biophilic Design looks at offering a solution to the impact man-made urban environments have on the human psyche. It aims to improve our quality of life by introducing elements of the natural world back into architecture to help us reconnect with nature.

## What are The Benefits of Biophilic Design?

Humans have an inherent association to nature, but the majority of people now spend more than 80% of their time indoors. By re-establishing these beneficial connections to the natural environment in our surroundings we can:

- › Promote general population well-being and reduce stress.
- › Improve our emotional comfort and awareness.
- › Promote better productivity in the workplace.
- › Enhance learning aptitude in the classroom.
- › Achieve enhanced shopping experiences in retail environments.
- › Create a relaxed and soothing experience in hospitality.

## How Can SUPAWOOD Linings Enhance Your Biophilic Theme?

SUPAWOOD offers a very diverse range of highly flexible products and finishes which can be customised to achieve an essential part of your Biophilic Design. With our Design, Supply and Install service to help you, you can achieve:

- › Naturalistic shapes and forms.
- › Patterns and textures found in nature.
- › Reproduced Images of nature.
- › Natural finishes and materials.
- › Floating features and screens.
- › Integrated lighting and other services.
- › Linings suitable for inside and out.
- › Undulating, twisting and curved effects.

# Our Biophilic Suitable Products Include:

## Panels

- › SUPALINE decorative panels are available in a huge range of natural timber look finishes, can be custom grooved and/or installed in a 3D effect.
- › MIMIC panels can be printed with virtually any supplied image.
- › SUPACOUSTIC acoustic panels and tiles, as well as our standard patterns, can be supplied in custom permutations to emulate almost any pattern you desire without effecting their acoustic properties. The panels themselves can be made in any shape.
- › Our SUPATILE 3D acoustic and decorative ceiling tiles can be used to add dimensional ceiling effects.

# Our Biophilic Suitable Products Include:

## Beams

- › Lightweight MAXI BEAM offers the flexibility to create chunky timber elements for walls, ceilings and screen in natural textured timber looks. They can also be custom contoured.
- › ALUCLICK aluminium beams allow you to create highly durable effects for both inside and out. Available in a range of woodgrains.
- › Multiple node junction details and acoustic options are available.
- › Due to their lightweight, both can be used for floating ceiling effects.

# Our Biophilic Suitable Products Include:

## Slats

- › SUPASLAT slatted panels can be used in endless ways to achieve natural timber effects.
- › DRIFTWOOD rustic slatted panels and ceiling tiles add a unique weathered timber effect.
- › SUPATILE SLAT slatted ceiling tiles make applying a slatted effect and accessibility easy by using a T-bar ceiling grid.
- › Acoustic options available.

# Our Biophilic

## Suitable Products Include:

### Blades and Fins

- › WAVE BLADES timber blades or fins can be use in endless ways on ceilings and walls. Achieve amazing natural effects such as flowing water and branching trees.
- › WAFFLE BLADES allow you to apply geometric effects with ease.
- › Both products are available in a huge rand of finishes included textured timber laminates.
- › Acoustic options available.

# Textured Finishes

SUPASURFACE V-Series Textured Laminate for MDF

SUPALAMI Rustic Laminates for MDF

Watch our video to find out about the advantages of choosing SUPAMETAL Textured Woodgrains.

DRIFTWOOD hand etched weathered-look solid slats

SUPAWOOD also have a large range of smooth timber laminates and natural timber veneers to choose from. With our MIMIC seamless wall and ceiling panel option you can reproduce virtually any natural surface you desire.
