Experiential Retail

Shopping Centres are being reinvented to compete in the digital age. Developing into major destinations for the consumer and tourist, they are no longer simply places for shopping, but now a complete experience with entertainment, leisure and food.

Brick-and-mortar retailers' best defence against on-line shopping is to provide an atmosphere that a computer screen can't convey. Retail designers are increasingly turning to SUPAWOOD's range to create dynamic store environments that drive traffic and sales.

WAVE BLADE ceiling in SUPASURFACE Oak RNO textured laminate at Romeo's IGA, MLC Centre, Sydney NSW.

SUPALINE panels in SUPACOLOUR Metallic Gold at Melbourne Airport T2 Luxury Retail, Melbourne VIC.

MAXI BEAM ceiling in SUPALAMI Light Tas Oak laminate at Campbelltown Fresh Food Precinct, Campbelltown NSW.

MAXI BEAM floating ceiling in SUPALAMI Rustic Oak laminate in the fresh food market at Westfield Penrith, NSW.

Product Range

Panels

SUPATILE – Drop-in ceiling tiles that address noise reverberation in open workspaces with style.

SUPACOUSTIC – High-performing decorative acoustic panels to address noise reverberation. Perfect for meeting rooms and quiet zones. Panels are suitable for both ceilings and walls, and patterns can be customised to suit the client's brand.

SUPALINE – Durable decorative panel system for feature walls and ceilings. Ideal for high traffic areas such as lobbies, receptions, atriums and corridors. Panels are generally solid, but grooved or routed effects are possible.

Slats

SUPATILE SLAT – Fully accessible slatted ceiling tiles make designing distinctive breakout and collaboration spaces easy.

SUPASLAT – Versatile linear slatted wall and ceiling panels. Great to transform any reception, collaborative or corridor space.

Beams

ALUCLICK – Aluminium decorative beam system. Beams 'click lock' into a standard suspension system. Applications include exterior façade upgrades and entry areas.

MAXI BEAM – Lightweight beam system for feature beam ceilings, walls or screens. Use semi-visual screens as dividers between receptions, breakout areas and the main office space.

WAVE BLADES – Sculptured timber blade features for ceilings and walls. Create eye-catching contoured effects in reception and open workspaces.

WAFFLE BLADES – Striking geometric ceiling effects made easy. Blades can be criss-crossed and angled in a myriad of ways. Ideal for reception and collaborative spaces.

Supawood can adapt an innovative solution for your unique design requirements.

Lighting

This can be incorporated between slats, beams and panels or set into slatted and flat panels in a regular pattern. Other lighting such as pendent lighting can be hung from or between panels.

Airconditioning Diffusers

Linear diffusers can be placed between beams and slats, concealed in services zones, or square diffusers can be used to fill a half panel space.

Other Services

Fire sprinklers, smoke detectors and other services can be set out neatly between panel components or centred in panels wherever possible.

Access Panels

Hidden access to services in the wall or ceiling cavity is an option available across our range. Our SUPATILE ceiling tile products will provide full accessibility across the entire ceiling.

Sustainable Design

SUPAWOOD can meet your project's sustainability requirements including Green Star rating. We are a certified FSC and PEFC Chain-of-Custody supplier. Our lining solutions can also be specified in materials with low VOC and Formaldehyde emissions.

We will work closely with your design team to ensure a high level of environmental efficiency throughout your project.

SUPASLAT undulating ceiling in SUPA VENEER Blackbutt natural timber veneer at MLC Centre, Sydney NSW.

MAXI BEAM ceiling in SUPALAMI Rustic White laminate at Ocean Keys Shopping Centre, Clarkson WA.

Fire Retardancy

Our panels, slats and beams have been fully tested to meet Fire Group 1, 2 and 3 requirements in Australia and New Zealand. They are suitable for all critical areas and available in FR rated timber finished options.

MAXI BEAM floating ceiling in a fire retardant option finished in SUPAFINISH Blackbutt laminate in The Plaza food court at Wentworthville Leagues Club, NSW

SUPACOUSTIC perforate acoustic ceiling panels in SUPAFINISH Spotted Gum laminate at Majura Park Shopping Centre, ACT.

Acoustics

SUPAWOOD have high end architectural linings for reverberation control and optimal acoustics. This is crucial in any busy environment where noise needs to be controlled.

We can supply full NATA certified test results, scattering coefficients and other technical documentation, all designed to help you make the right choice for your next project.
