

SUPAWOOD WAFFLE BLADES

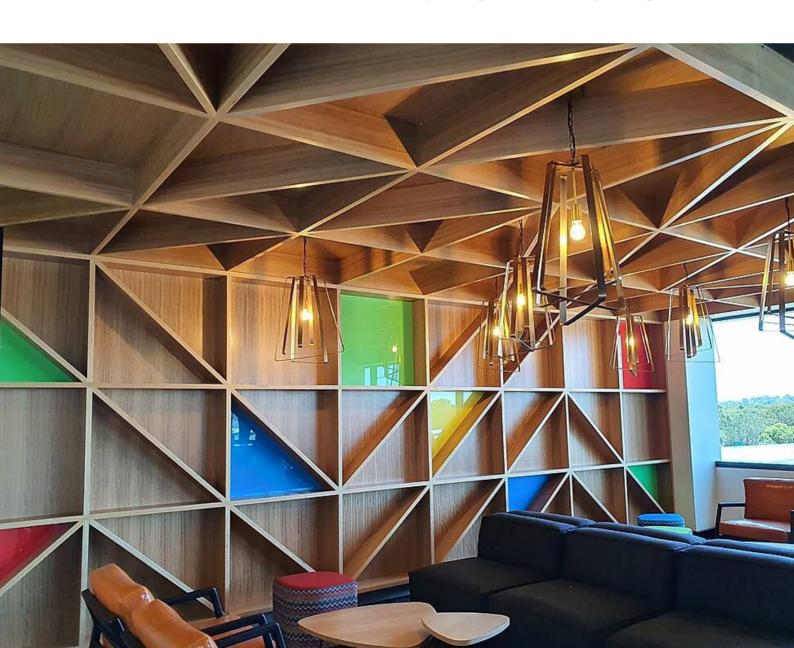

Striking geometric ceiling effects made easy!

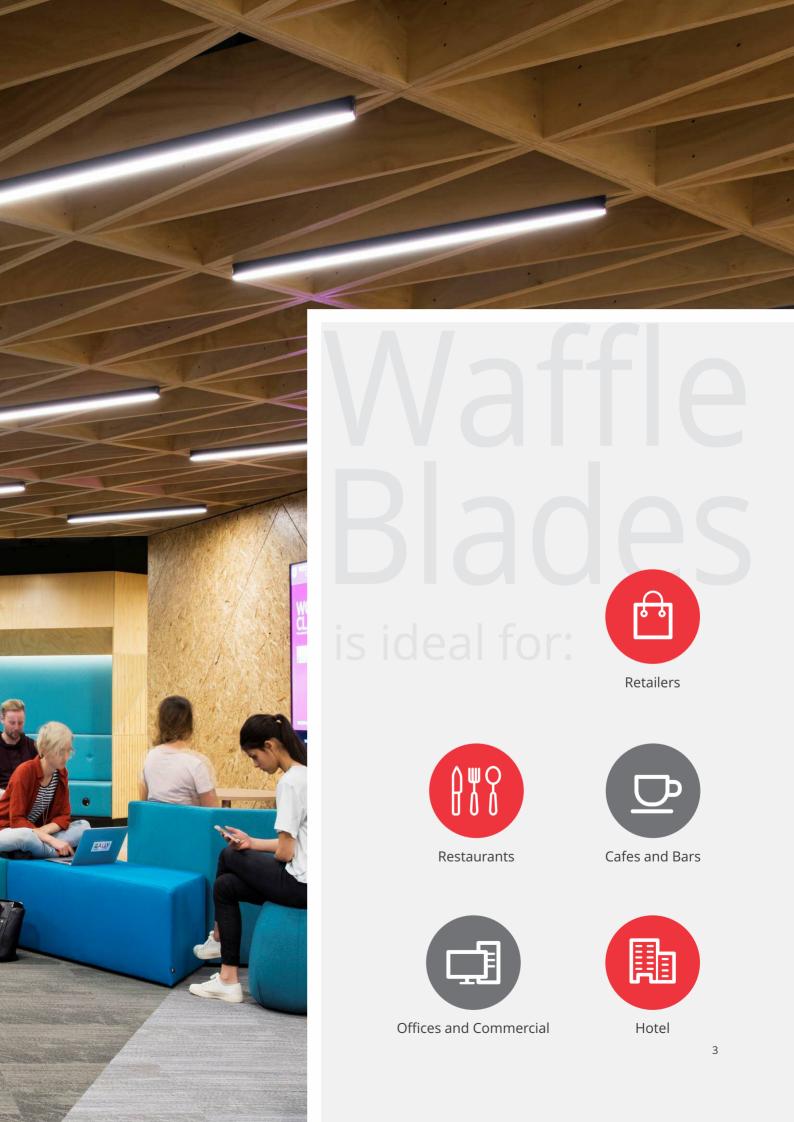

Supawood Waffle Blades is the new cost-effective ceiling system that allows you to easily design striking geometric effects.

Create dazzling patterns such as crosses, saltires, boxes and even complex multi-point starbursts.

Waffle Blades' vertical blades can be criss-crossed and angled in a myriad of different ways. Leave them in an open grid for a more spacious interior feel. Alternatively, enclose the back with black acoustic felt or even solid or perforated panels.

Exciting and on-trend, Waffle Blades opens an incredible array of design possibilities without compromising services, access or your budget.

Waffle Blades technical details and design options

Blade widths

- > 18mm standard
- > Custom widths available

Inserts

- > Add diagonal or perpendicular crosspieces
- > Use the same finish, or a contrasting finish

Substrates

- > Fire retardant (See table below)
- > Green Star

Blade angle

> 45 to 90 degree intersection

Ceiling backing

- > No backing
- Partial backing just cover up some grids for a unique effect
- > Full backing in a solid or acoustic panel
- Matching or contrasting finishes
- > Access options available

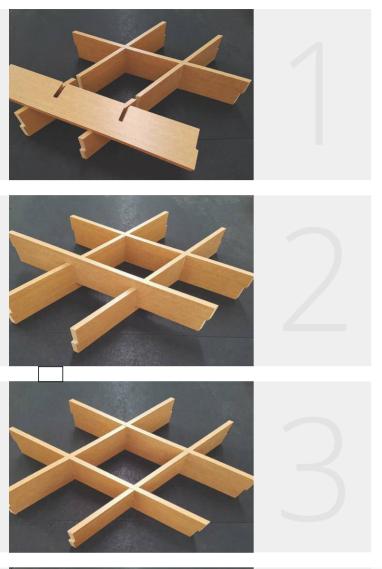

Typical open configurations to achieve Fire Group 2

Square waffle patterns (no backing)		
Grid size	Grid depth	% exposed surface area
340x340mm (322mm gaps)	100mm	128.2%
500x500mm (482mm gaps)	150mm	127.2%
650x650mm (632mm gaps)	200mm	128.6%
Square with diagonal waffle patterns (no backing)		
Grid size	Grid depth	% exposed surface area
580x580mm (562mm gaps)	100mm	127.8%
710x710mm (692mm gaps)	125mm	128.3%
840x840mm (822mm gaps)	150mm	128.7%

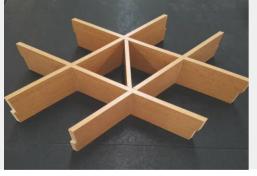

Interlocking blade install details

Assembly Concept

See sequence on left showing partly assembled to fully assembled.

Member lengths are typically 2400mm long.

This product can be assembled on the ground then lifted as a module or assembled piece by piece at final install height.

4

Fully assembled with diagonals.

5

Suspension clips to be inserted in groove on rear, then fixed with two screws through side. Matching decal provided to cover screws.

Finishes and colours

Colours shown in these swatches are a guide only and actual will vary from blade to blade.

Matching edges on both SUPAFINISH and SUPAVENEER Blades

SUPAFINISH

(SF) Veneer & Coloured Laminates

This laminate perfectly matches our panel and beam products. Group 1 and 2 Fire Retardant available even in slats and beams.

Hoop Pine Limed SF

Hoop Pine Classic SF

Fusion Maple SF

Tasmanian Oak SF

Blackbutt SF
